

Appl. No. 10/629,282
Amendment dated May 15, 2006
Reply to Office action of March 3, 2006

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims

1. (Withdrawn) A two sided glove comprising:
a palm piece containing an inner thumb piece and adapted to form a first finger pocket and a fourth finger pocket;
an outer thumb piece stitched to said inner thumb piece;
two side thumb pieces stitched to said inner thumb piece and said outer thumb piece; and
a middle fingers piece stitched to said palm piece and adapted to form a second finger pocket and a third finger pocket;
wherein said glove has an outer and an inner surface and said stitching is concealed from said glove's outer surface by virtue of said stitching being performed on said inside surfaces.
2. (Withdrawn) The two sided work glove of Claim 1 further comprising a cuff piece stitched to said palm piece.
3. (Currently Amended) A two sided glove comprising:
a palm piece containing an inner thumb piece and adapted to form a first finger pocket and a fourth finger pocket;
an outer thumb piece stitched to said inner thumb piece;
two side thumb pieces stitched to said inner thumb piece and said outer thumb piece; and
a middle fingers piece stitched to said palm piece and adapted to form a second finger pocket and a third finger pocket;
The two sided work glove of Claim 1 further comprising:
a short narrow strip of material sandwiched between said middle fingers piece and said palm piece by the stitching joining said middle fingers piece and said palm piece; and
a long narrow strip of material sandwiched between
said thumb side piece and said palm piece by the stitching joining said thumb side piece and said palm piece;
wherein said glove has an outer and an inner surface and said stitching is concealed from said glove's outer surface by virtue of said stitching being performed on said inside surfaces and wherein said short narrow strip and said long narrow strip are adapted to form overhanging thread savers on ~~an exterior~~ said outer surface of the glove.
4. (withdrawn) The glove of claim 1 further comprising an internal liner stitched to an interior surface of said glove.
5. (withdrawn) The glove of claim 1 further comprising a wear guard piece of material sewn onto said palm piece wherein said wear guard is patterned to conform to areas of said glove

subject to excessive wear.

6. (withdrawn) The glove of claim 3 further comprising an internal liner stitched to an interior surface of said glove
7. (Currently amended) The glove of claim 6 3 further comprising a wear guard piece of material sewn onto said palm piece wherein said wear guard is patterned to conform to areas of said glove subject to excessive wear.
8. (withdrawn) The glove of claim 2 further comprising an internal liner stitched to an interior surface.
9. (withdrawn) The glove of claim 7 further comprising a wear guard piece of material sewn onto said palm piece wherein said wear guard is patterned to conform to areas of said glove subject to excessive wear
10. (withdrawn) A two sided glove comprising:
stitching thread;
a palm piece containing an inner thumb piece and adapted to form a first finger pocket, a fourth finger pocket and a palm pocket;
an outer thumb piece stitched to said palm piece and adapted to form a thumb pocket; and
a middle fingers piece stitched to said palm piece and adapted to form a second finger pocket and a third finger pocket;
wherein said glove has an outer and an inner surface and said stitching thread is concealed from said glove's outer surface by virtue of said stitching being performed on said inside surfaces.
11. (withdrawn) The glove of claim 10 further comprising a cuff piece stitched to said palm piece.
12. (withdrawn) The glove of claim 10 further comprising:
a short narrow strip of material sandwiched between said middle fingers piece and said palm piece by the stitching joining said middle fingers piece and said palm piece; and
a long narrow strip of material sandwiched between
said outer thumb piece and said palm piece by the stitching joining said outer thumb piece and said palm piece;
wherein said short narrow strip and said long narrow strip are adapted to form overhanging thread savers on an exterior surface of the glove.
13. (withdrawn) The glove of claim 10 further comprising a wear guard piece of material

sewn onto said palm piece wherein said wear guard is patterned to conform to areas of said glove subject to excessive wear.

14. (withdrawn) The glove of claim 10 further comprising an internal liner stitched to an interior surface of said glove.

15. (withdrawn) The glove of claim 11 further comprising:
a short narrow strip of material sandwiched between said middle fingers piece and said palm piece by the stitching joining said middle fingers piece and said palm piece; and
a long narrow strip of material sandwiched between
said outer thumb piece and said palm piece by the stitching joining said outer thumb piece and
said palm piece;
wherein said short narrow strip and said long narrow strip are adapted to form
overhanging thread savers on an exterior surface of the glove.

16. (withdrawn) The glove of claim 15 further comprising an internal liner stitched to an interior surface of said glove.

17. (withdrawn) The glove of claim 16 further comprising a wear guard piece of material sewn onto said palm piece wherein said wear guard is patterned to conform to areas of said glove subject to excessive wear.

18. (withdrawn) The glove of claim 12 further comprising an internal liner stitched to an interior surface.

19. (withdrawn) The glove of claim 18 further comprising a wear guard piece of material sewn onto said palm piece wherein said wear guard is patterned to conform to areas of said glove subject to excessive wear.

20. (withdrawn) A two sided glove comprising:
a stitching thread;
a palm piece symmetrical about a central axis, containing an inner thumb section and seven finger extensions adapted to form a first finger pocket, a second finger pocket, a third finger pocket, a fourth finger pocket and a thumb pocket when said palm piece is folded approximately in half about said central axis;
three finger sides stitched to said palm piece to form said second finger pocket, said third finger pocket and said fourth finger pocket; and
an outer thumb piece stitched to said inner thumb section and said palm piece to form said thumb pocket;
wherein said glove has an outer and an inner surface and said stitching is concealed from

said glove's outer surface by virtue of said stitching being performed on said inside surfaces.

21. (withdrawn) The two sided glove of claim 20 wherein said outer thumb piece further comprises a thumb back piece and two substantially identical thumb side pieces which are mechanically attached to said thumb back piece.

22. (withdrawn) A two sided single finger work mitt comprising;
stitching thread;

a palm piece symmetrical about a central axis, containing an inner thumb flap, an index finger section, and a group finger section that is adapted to form an index finger pocket, a palm pocket and a group finger pocket when folded into approximate half about said central axis;

an outer thumb piece stitched to said inner thumb flap and adapted to form a thumb pocket; and

an inner finger piece stitched to said index finger section.

23. (withdrawn) The two sided single fingered work mitt of claim 22 wherein said outer thumb piece further comprises a thumb back piece and two substantially identical thumb side pieces which are mechanically attached to said thumb back piece.

24. (withdrawn) The single finger work glove of claim 22 further comprising an elastic strap sewn to distal sides of said front piece and residing above said back piece, wherein said elastic is adapted to bring said distal sides into closer proximity by buckling said back piece.

25. (withdrawn) The single finger work glove of claim 21 further comprising a hem trim strip sewn around an opening in said glove.
